\$ RRP inc GST	Please Call or Email for Current Pricelist				

* Running costs are based upon our recommended stoneware firing to 1260 C with an empty Kiln and a Electricity Price of 33c per kW/h

Depth of Kiln can be reduced by 120mm by removing the kiln door and Thermocouple temporarily in order to clear narrow doorways.

Available Direct or through your local reseller:

About Woodrow Kilns

Over 50 years experience and a legendary reputation for providing not only the best Kilns, but also outstanding customer service and support. Take comfort knowing that Woodrow Kilns is here for you now and in the future.

Support

Each Kiln includes recommended firing profiles and a detailed instruction manual with step by step photos. Should you ever have a question or need advice Woodrow is just a phone call or e-mail away.

Service & Repair

Woodrow provides extensive support for all our Kilns across Australia. We have a list of recommended repairers across the country or we can guide you or your local electrician through most maintenance items. We can express post parts to your door across Australia within days.

Warranty

Woodrow is proud to stand behind our Kilns with a full 3 Year Factory Warranty plus lifetime phone and e-mail support.

Home / Hobby
Single Phase
Kiln Range

Every Kiln in the Hobby Fire Range features:

- User friendly plain English instructions with step by step photos including recommended firing profiles.
- Everything you need including a set of shelves and props to suit the Kiln.
- Easy to use, set and forget Automatic Kiln controller with built in safety cut out.
- Our 'Watch Dog' backup circuit to prevent over firing and a safety door switch.
- High Efficiency Fibre Board Insulation - Up to 60% cheaper to run than brick lining.
- Variable Pitch Elements for an even chamber
- All Aluminium Frame & Casing.
- Easily serviceable parts and accessories.

Benefits

- All Kilns can be used for variety of firing types including:
 - Pottery or Ceramics
 - Basic Glass Fusing or Slumping
 - Glass Beads or Jewellery
 - Enamelling or Heat Treatment
 - Precious Metal Clay or Wax Burn Out
 or any other type of firing that can be performed in an Electric Kiln.
- Has a delay start function to allow you to fire when electricity prices are more economical.

Easy to use Automatic Control

- Each Kiln's price includes Orton's AFS Multi-stage Controller with 25 Program memory slots, Solid State Relays for Quiet running and long life Type S Thermocouple.

Simply Enter:

- How fast do you want to go? Ramp (DegC/hr)
 - What Temperature do you want to reach? Temperature (Deg C)
 - Do you want to hold (soak) at that temp? Optional (Hr:Min)
- You can program anywhere from 1 to 20 stages.
 - Ramps can also be down, so you can control cooling for things like glass or crystal glazes.

Power Connection & Running Costs

All Hobby Fire Kilns connect to domestic type single phase power using similar sized connections to your kitchen oven or electric hot water. We have also provided examples of how much each Kiln costs to fire so you can see how economical it is to run a Kiln from home.

Testimonials:

"My first kiln firing went great and the recommended programs are working well. The kiln manual is very user friendly and is written in simple terms if a person has not used a kiln before. Great doing business with you."
Jan.O Darling Heights Qld

"Thank you for a very easy transaction/delivery process and a great product"
